

Keeping you updated

We wanted to provide you with an update on the development and what you can expect from us over the coming months.

Overview

There will be 154 new homes on the development, which will provide:

- 46 affordable homes for rent or shared ownership
- A Public Open Space at the centre of the development
- Attenuation basin
- Photovoltaic panels and EV charging for every home
- A new Community Building on site

Site activity

- Progress remains behind programme due to delays with utility connections.
- Next stages in the project of significance are completions & occupations of the first Open Market units in June 24.

Specific item –

- Mains services are progressing later than initially planned, mains power is expected on site in September 24. Live water & gas is now on site & connected to plots. First occupations are planned to be completed using sitewide generators with back up systems in place.

Timeline

- Important dates: first completions are expected in June 24 , show home & sales arena is planned to be completed at the end of April 24 & officially opened shortly after this.
- Upon completion of phase 1 plots the POS area to the west with the attenuation pond will be open to the public.
- 60% of the main roads are now formed, as part of the handover of plots/phases these roads will be completed along with pavements. The pavements will not be topped initially due to services however the main roads will only be topped towards the ends of each project phase.

Managing agent

The managing Agent for Morva Reach is Remus Property Services. Key responsibilities include:

- Providing reasonable management information to residents
- Dealing with any necessary repairs other than major repairs
- Consultation on management matters
- Liaising with local authorities and utility companies (not including meter)
- Visiting the property and visually checking general condition
- The development will be handed to Remus Property Services 6 months from the final home completing.

Ecology

- A specialist's watching brief is in place for the treatment and handling of the Japanese Knotweed in the north of the site.
- An ecologist's watching brief is in place to ensure that slow worms in the north of the site are not impacted by the construction works.
- The project benefits from a monthly ecologist visit reporting on compliance with obligations & advising the team on best practice requirements.

Services

- The initial billing of Gas and Electric will be through British Gas.
- Your home has an Openreach line terminating in a network termination socket. You should contact your chosen landline / internet service provider for this to be activated.
- Water billing mains water supply and sewerage, will be billed through IWNL. As an IWNL customer you will not be charged any more than if you were being supplied by a local traditional water company.
- Most homes will have an EV Charger within the curtilage of the property and will pay for the electricity used through their electricity bill.
- The remaining plots – 39-44, 70-93 and 125-139, will be served by chargers that are on a separate communal supply, but remain private to the allocated resident. Unlike the on-plot chargers, the tariff for this supply will be in the hands of the ManCo. The resident would not have to pay any charges if they do not require a charger and will pay for the electricity they use.

Morva Reach Longrock

- 4 bedroom home**
 - The Alcliffe
 - The Goodridge
 - The Myne
 - The Leverton

- 3 bedroom home**
 - The Emmett
 - The Cveleigh
 - The Mounford
 - The Beckat
